

Howdy folks!

First of all, if you don't have an **EnglishPod** account yet, you might go to englishpod.com, complete the simple registration process and get one yourself for free.

Now, what can you do with this site?

You can choose any lesson you like from **EnglishPod**, find the appropriate transcript here on the site and read it while listening the lesson. It might be more effective than if you just listen to the lesson by itself, because if you see the text, you can catch every single word and you can understand EVERYTHING.

Also if you for some reason are unable to listen to the lessons at the moment, you can review your favorite lessons just by reading in order to refresh your memory about studied words and phrases. But be sure to listen to the lessons without reading the transcript at least a couple of times, since it's necessary for developing your listening skills. The transcripts is just a special **add-on** for more effective learning.

Now, let me please tell you about some **font&color** rules of these transcripts:

We use **BLACK BOLD** for main studied words and phrases.

We use **BLUE BOLD** for language features, such as articles, tenses and all that stuff.

We use **GREEN BOLD** for interesting and useful words and phrases, other than **BLACK BOLD**ed ones.

We use **RED BOLD** for emphasizing incorrect usage of language.

We use **SIMPLE RED** or **???** (triple question mark) for things that are unclear.
